Data of Transjakarta on Integration with Regular Bus
Transjakarta Corridors and Routes

- Transjakarta has 13 main corridors
- At the end of 2015, Transjakarta began massively adding route integration with regular bus
- There are 122 routes until the end of 2017
Transjakarta Annual Passengers and Bus Kilometers

The addition of bus kilometres will add the number of passengers.

From 2011 to 2015, the growth of passengers is relatively stagnant because there is no new service from Transjakarta.

The addition of articulated bus in 2013 did not increase in the number of passengers.

Start from 2015, Transjakarta increases its passengers along with the addition of bus kilometers through the expansion of Transjakarta route.
Transjakarta Annual Passengers and Number of Routes

- From 2004 to 2011, Transjakarta ridership increased along with the addition of Transjakarta corridor.
- Positive trends in passenger ridership continues start from 2015 until now with the addition of routes expansion done by Transjakarta.
