Scaling up transformation
Transforming TN: From 10 to 1000 kms of Streets for People
“I walk with my heart in my hand.”
A third of all trips in the city are by walk or cycle.
Building support for streets for all users and uses
Pilots created in collaboration with local designers
Embed change through policy adoption mandating allocation of capital
Expanding transformation: Institutional reforms and capacity building
From 100 km to city-wide NMT network
Ensuring seamless mobility, improved livability and well planned utilities
Creating walking and cycling-friendly plans for 10 cities

NMT Master plan

Pedestrian Network

Cycle Network
Developing national best practice standards
Thank you!
